RE: 071-OYB-2-010210

Dear Sir:

Pioneer Construction Materials, Company and Lonestar Industries have recently formed a new joint venture company named Northwest Aggregates Company to manage and operate several gravel operations in the Puget Sound area. We would appreciate it if you would change the name on Corps Permit Number 071-OYB-2-010210 from Pioneer Construction Materials Company to Northwest Aggregates Company, the correspondence should be sent to:

Mr. Jim Repman
N.W. Aggregates Co.
P.O. Box 1730
Seattle, WA 98111

Sincerely,

Western Pacific Construction Materials, Co.
(a division of Riedel International, Inc.)

Dear Mr. Repman:

Enclosed is a Department of the Army permit which authorizes performance of the work described in your referenced application.

You are cautioned that any change in the location or plans of the work will require submittal of a revised plan to this office for approval prior to accomplishment. Deviation from approved plans may result in imposition of criminal or civil penalties.

Your attention is drawn to conditions "o" and "n" of the permit which specify the expiration date for completion of the work and that you notify this office of the date the work is completed.

Sincerely,

Warren E. Baxter

**DEPARTMENT OF THE ARMY
PERMIT**

Referring to written request dated ----31 July 1985---- for a permit to:

(X) Perform work in or affecting navigable waters of the United States, upon the recommendation of the Chief of Engineers, pursuant to Section 10 of the Rivers and Harbors Act of March 3, 1899 (33 U.S.C. 403);

() Discharge dredged or fill material into waters of the United States upon the issuance of a permit from the Secretary of the Army acting through the Chief of Engineers pursuant to Section 404 of the Clean Water Act (33 U.S.C. 1344);

() Transport dredged material for the purpose of dumping it into ocean waters upon the issuance of a permit from the Secretary of the Army acting through the Chief of Engineers pursuant to Section 103 of the Marine Protection, Research and Sanctuaries Act of 1972 (86 Stat. 1052; P.L. 92-532);

Pioneer Construction Materials Company
Division of Riedel International, Inc.
Post Office Box 1730
Seattle, Washington 98111

is hereby authorized by the Secretary of the Army:

to dredge 10,000 cubic yards of sand and gravel each year for a period of 3 years
totaling 30,000 cubic yards by clamshell (with upland disposal) _____

in Puget Sound _____

~~XXX~~ near Steilacoom, Pierce County, Washington _____

in accordance with the plans and drawings attached hereto which are incorporated in and made a part of this permit (on drawings, give file number or other definite identification marks.) 071-0YB-1-010210, 3 sheets

subject to the following conditions: _____

I. General Conditions:

a. That all activities identified and authorized herein shall be consistent with the terms and conditions of this permit; and that any activities not specifically identified and authorized herein shall constitute a violation of the terms and conditions of this permit which may result in the modification, suspension or revocation of this permit, in whole or in part, as set forth more specifically in General Conditions j or k hereto, and in the institution of such legal proceedings as the United States Government may consider appropriate, whether or not this permit has been previously modified, suspended or revoked in whole or in part.

b. That all activities authorized herein shall, if they involve, during their construction or operation, any discharge of pollutants into waters of the United States or ocean waters, be at all times consistent with applicable water quality standards, effluent limitations and standards of performance, prohibitions, pretreatment standards and management practices established pursuant to the Clean Water Act (33 U.S.C. 1344), the Marine Protection, Research and Sanctuaries Act of 1972 (P.L. 92-532, 86 Stat. 1052), or pursuant to applicable State and local law.

c. That when the activity authorized herein involves a discharge during its construction or operation, or any pollutant (including dredged or fill material), into waters of the United States, the authorized activity shall, if applicable water quality standards are revised or modified during the term of this permit, be modified, if necessary, to conform with such revised or modified water quality standards within 6 months of the effective date of any revision or modification of water quality standards, or as directed by an implementation plan contained in such revised or modified standards, or within such longer period of time as the District Engineer, in consultation with the Regional Administrator of the Environmental Protection Agency, may determine to be reasonable under the circumstances.

d. That the discharge will not destroy a threatened or endangered species as identified under the Endangered Species Act, or endanger the critical habitat of such species.

e. That the permittee agrees to make every reasonable effort to prosecute the construction or operation of the work authorized herein in a manner so as to minimize any adverse impact on fish, wildlife, and natural environmental values.

f. That the permittee agrees that he will prosecute the construction or work authorized herein in a manner so as to minimize any degradation of water quality.

g. That the permittee shall allow the District Engineer or his authorized representative(s) or designee(s) to make periodic inspections at any time deemed necessary in order to assure that the activity being performed under authority of this permit is in accordance with the terms and conditions prescribed herein.

h. That the permittee shall maintain the structure or work authorized herein in good condition and in reasonable accordance with the plans and drawings attached hereto.

i. That this permit does not convey any property rights, either in real estate or material, or any exclusive privileges; and that it does not authorize any injury to property or invasion of rights or any infringement of Federal, State, or local laws or regulations.

j. That this permit does not obviate the requirement to obtain state or local assent required by law for the activity authorized herein.

k. That this permit may be either modified, suspended or revoked in whole or in part pursuant to the policies and procedures of 33 CFR 325.7.

l. That in issuing this permit, the Government has relied on the information and data which the permittee has provided in connection with his permit application. If, subsequent to the issuance of this permit, such information and data prove to be materially false, materially incomplete or inaccurate, this permit may be modified, suspended or revoked, in whole or in part, and/or the Government may, in addition, institute appropriate legal proceedings.

m. That any modification, suspension, or revocation of this permit shall not be the basis for any claim for damages against the United States.

n. That the permittee shall notify the District Engineer at what time the activity authorized herein will be commenced, as far in advance of the time of commencement as the District Engineer may specify, and of any suspension of work, if for a period of more than one week, resumption of work and its completion.

o. That if the activity authorized herein is not completed on or before 27th day of Jan., 19 89, (three years from the date of issuance of this permit unless otherwise specified) this permit, if not previously revoked or specifically extended, shall automatically expire.

p. That this permit does not authorize or approve the construction of particular structures, the authorization or approval of which may require authorization by the Congress or other agencies of the Federal Government.

q. That if and when the permittee desires to abandon the activity authorized herein, unless such abandonment is part of a transfer procedure by which the permittee is transferring his interests herein to a third party pursuant to General Condition t hereof, he must restore the area to a condition satisfactory to the District Engineer.

r. That if the recording of this permit is possible under applicable State or local law, the permittee shall take such action as may be necessary to record this permit with the Register of Deeds or other appropriate official charged with the responsibility for maintaining records of title to and interests in real property.

s. That there shall be no unreasonable interference with navigation by the existence or use of the activity authorized herein.

t. That this permit may not be transferred to a third party without prior written notice to the District Engineer, either by the transferee's written agreement to comply with all terms and conditions of this permit or by the transferee subscribing to this permit in the space provided below and thereby agreeing to comply with all terms and conditions of this permit. In addition, if the permittee transfers the interests authorized herein by conveyance of realty, the deed shall reference this permit and the terms and conditions specified herein and this permit shall be recorded along with the deed with the Register of Deeds or other appropriate official.

u. That if the permittee during prosecution of the work authorized herein, encounters a previously unidentified archeological or other cultural resource within the area subject to Department of the Army jurisdiction that might be eligible for listing in the National Register of Historic Places, he shall immediately notify the district engineer.

II. Special Conditions: *(Here list conditions relating specifically to the proposed structure or work authorized by this permit):*

a. That the permittee shall comply with the provisions of the attached Water Quality Certification.

The following Special Conditions will be applicable when appropriate:

STRUCTURES IN OR AFFECTING NAVIGABLE WATERS OF THE UNITED STATES:

- a. That this permit does not authorize the interference with any existing or proposed Federal project and that the permittee shall not be entitled to compensation for damage or injury to the structures or work authorized herein which may be caused by or result from existing or future operations undertaken by the United States in the public interest.
- b. That no attempt shall be made by the permittee to prevent the full and free use by the public of all navigable waters at or adjacent to the activity authorized by this permit.
- c. That if the display of lights and signals on any structure or work authorized herein is not otherwise provided for by law, such lights and signals as may be prescribed by the United States Coast Guard shall be installed and maintained by and at the expense of the permittee.
- d. That the permittee, upon receipt of a notice of revocation of this permit or upon its expiration before completion of the authorized structure or work, shall, without expense to the United States and in such time and manner as the Secretary of the Army or his authorized representative may direct, restore the waterway to its former conditions. If the permittee fails to comply with the direction of the Secretary of the Army or his authorized representative, the Secretary or his designee may restore the waterway to its former condition, by contract or otherwise, and recover the cost thereof from the permittee.
- e. Structures for Small Boats: That permittee hereby recognizes the possibility that the structure permitted herein may be subject to damage by wave wash from passing vessels. The issuance of this permit does not relieve the permittee from taking all proper steps to insure the integrity of the structure permitted herein and the safety of boats moored thereto from damage by wave wash and the permittee shall not hold the United States liable for any such damage.

MAINTENANCE DREDGING:

- a. That when the work authorized herein includes periodic maintenance dredging, it may be performed under this permit for 3 years from the date of issuance of this permit (*ten years unless otherwise indicated*);
- b. That the permittee will advise the District Engineer in writing at least two weeks before he intends to undertake any maintenance dredging.

DISCHARGES OF DREDGED OR FILL MATERIAL INTO WATERS OF THE UNITED STATES:

- a. That the discharge will be carried out in conformity with the goals and objectives of the EPA Guidelines established pursuant to Section 404(b) of the Clean Water Act and published in 40 CFR 230;
- b. That the discharge will consist of suitable material free from toxic pollutants in toxic amounts.
- c. That the fill created by the discharge will be properly maintained to prevent erosion and other non-point sources of pollution.

DISPOSAL OF DREDGED MATERIAL INTO OCEAN WATERS:

- a. That the disposal will be carried out in conformity with the goals, objectives, and requirements of the EPA criteria established pursuant to Section 102 of the Marine Protection, Research and Sanctuaries Act of 1972, published in 40 CFR 220-228.
- b. That the permittee shall place a copy of this permit in a conspicuous place in the vessel to be used for the transportation and/or disposal of the dredged material as authorized herein.

This permit shall become effective on the date of the District Engineer's signature.

Permittee hereby accepts and agrees to comply with the terms and conditions of this permit.

Gentlemen:

Water Quality Certification
Public Notice No. 071-OYB-2-010210-R

The public notice for this proposed Corps of Engineers permit has been reviewed in accordance with all pertinent rules and regulations.

This agency certifies these activities comply with applicable provisions of sections 301, 302, 303, 306, and 307 of the Federal Water Pollution Control Act as amended. This certification is subject to the provisions in the enclosed Hydraulic Project Approval from the Washington State departments of Fisheries and Game and the following:

1. Water quality standards pertaining to the marine waters of southern Puget Sound shall apply to this project, except in the authorized dilution zone, which in this case shall extend 45 meters radially from the point of dredging.
2. Within the dilution zone, total dissolved oxygen levels shall not be permitted to drop below 5.0 mg/L.

Please note this certification does not exempt, and is provisional upon, compliance with other statutes and codes administered by federal, state, and local agencies.

Sincerely,

A handwritten signature in cursive script, appearing to read "Greg Sorlie".

TIME LIMITATIONS:				5 THIS PROJECT MAY BEGIN Immediately		6 AND BE COMPLETED BY December 31, 1986			

THIS APPROVAL IS TO BE AVAILABLE ON THE JOB SITE AT ALL TIMES AND ITS PROVISIONS FOLLOWED BY THE PERMITTEE AND OPERATOR PERFORMING THE WORK.

The person(s) to whom this approval is issued may be held liable for any loss or damage to fish life or habitat which results from failure to comply with the provisions of this approval.

Failure to comply with the provisions of this approval is a gross misdemeanor, possibly punishable by fine and/or imprisonment.

The Department reserves the right, subject to the holders opportunity to a hearing to contest agency actions as provided by the Administrative Procedure Act, chapter 34.04 RCW, to make additional restrictions or conditions or revoke the approval when new information shows such action is necessary by the department for the protection of fish life.

This department cannot be held liable for any property damage which might occur as a result of this project, except where damages are proximately caused by actions of the department.

This approval pertains only to the provisions of the Fisheries and Game Codes. Additional authorization from other public agencies may be necessary for this project.

Note: The project is approved as illustrated in Corps of Engineers Public Notice 071-OYB-1-010210R, September 26, 1985.

1. Dredging shall not occur from March 15 to June 15.
2. A floating clamshell may be used for dredging. Each pass of the clamshell bucket shall be complete, and there is to be no stockpiling in the water.
3. Dredging operations shall be conducted at all times in such a manner as to cause little or no disturbance or siltation to the adjacent waters.
4. If at any time there should be fish in distress, a fish kill, or water quality problems as a result of this project, the dredging operations will be shut down immediately.
5. Dredged materials shall be deposited upland, as indicated in the Corps of Engineers Public Notice, such that they do not reenter surface waters of the state.
6. No deleterious materials shall be allowed to enter state waters as a result of this project.

DEPARTMENT OF FISHERIES

Earl L. Fanning, Jr. DIRECTOR

ADDITIONAL PROVISIONS

Telephone (206) 764-3495
ATTN: Richard Berg, Project Manager

Public Notice Date: 19 August 1985
Expiration Date: 18 September 1985
Reference: 071-OYB-2-010210
Name: Pioneer Construction
Materials Company

Interested parties are hereby notified that application has been received for Department of the Army permit in accordance with Section 10 of the Rivers and Harbors Act of March 3, 1899, and Section 404 of the Clean Water Act for certain work described below and shown on the enclosed prints.

APPLICANT - Pioneer Construction Materials Company
Division of Riedel International, Inc.
Post Office Box 1730
Seattle, Washington 98111
ATTN: James A. Repman, President
telephone (206) 622-2900

(Ron Summers)
764-3022

LOCATION - In Puget Sound near Steilacoom, Pierce County, Washington.

WORK - Dredge approximately 10,000 cubic yards of sand and gravel each year for a period of 3 years totaling 30,000 cubic yards and dispose at deepwater disposal site.

PURPOSE (PER APPLICANT) - Maintain adequate water depth for barge loading.

ENDANGERED SPECIES - Preliminary determinations indicate that the activity will not affect endangered species, or their critical habitat, designated as endangered or threatened (Endangered Species Act of 1973). Formal consultation under Section 7 of the Act is not required.

CULTURAL RESOURCES - Presently unknown archeological, scientific, prehistorical or historical data may be lost or destroyed by work to be accomplished under the requested permit. The work is not located on a property registered in the National Register of Historic Places.

PUBLIC HEARING - Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearings shall state, with particularity, the reasons for holding a public hearing.

EVALUATION - The decision whether to issue a permit will be based on an evaluation of the probable impact, including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered, including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, cultural values, fish and wildlife values, flood hazards, flood plain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, consideration of property ownership, and, in general, the needs and welfare of the people.

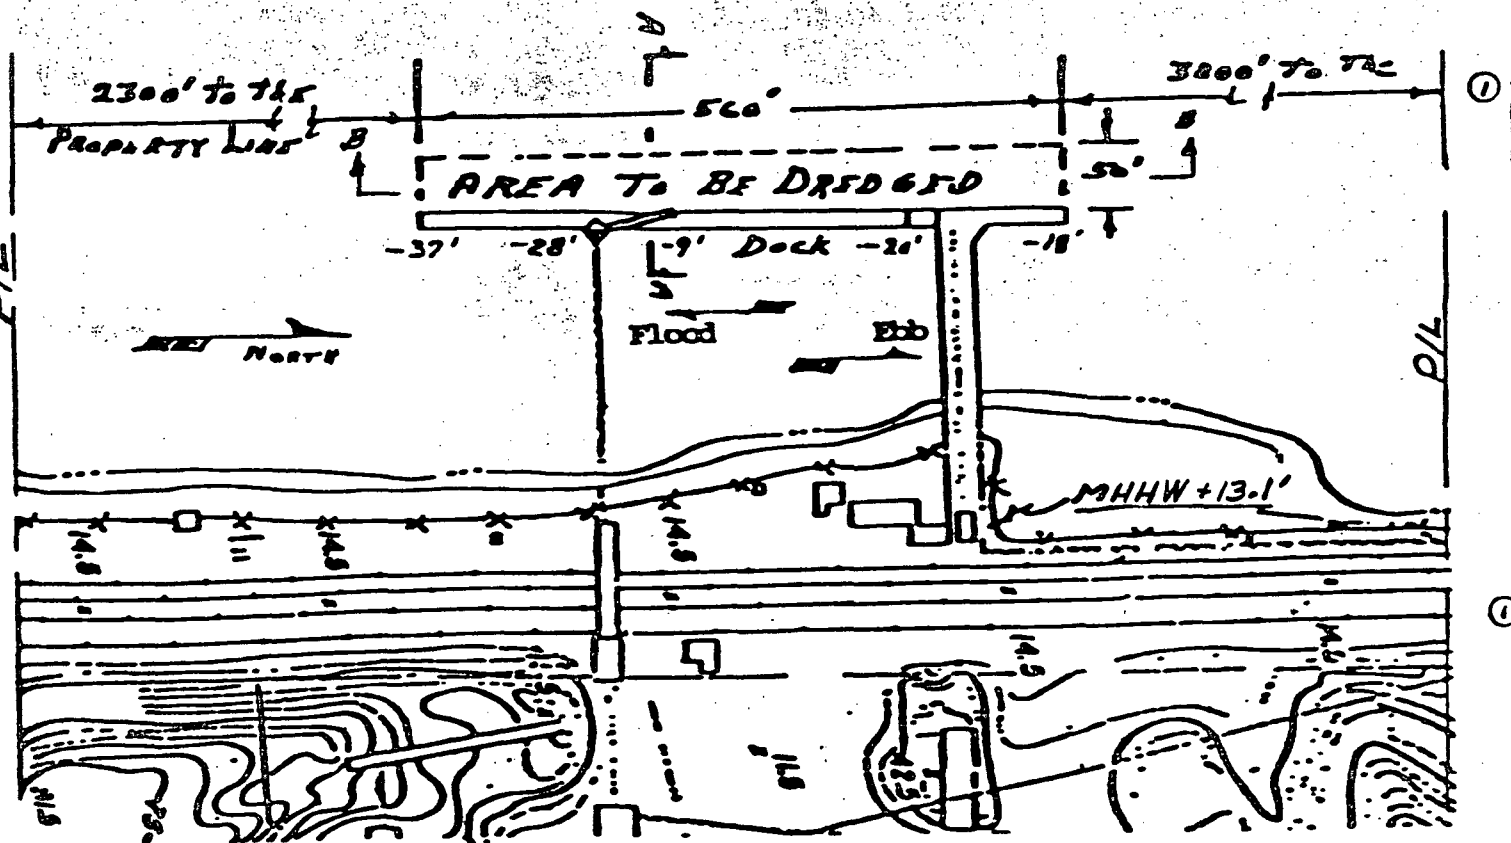

ADDITIONAL EVALUATION - The State of Washington is reviewing this work for consistency with the approved Washington Coastal Zone Management Program.

The evaluation of the impact of the activity on the public interest will include application of the guidelines promulgated by the Administrator, EPA, under authority of Section 404(b) of the Clean Water Act.

COMMENT AND REVIEW PERIOD - Comments on these factors will be accepted and made part of the record and will be considered in determining whether it would be in the best public interest to grant a permit. Comments should refer to the reference number shown above and reach this office, Attn: Regulatory Functions Branch, not later than the expiration date of this public notice to insure consideration.
